DS

SUMMARY

- I am a Junior Fullstack Web Developer with a focus on building scalable, efficient, and visually appealing web applications. My expertise spans both front-end and back-end development, and I have completed a Fullstack Web Development Bootcamp with projects including clones of popular websites. Proficient in HTML, CSS, JavaScript, React.js, Redux, Express.js, MongoDB, and familiar with version control using GitHub. I am passionate about problem-solving, continuous learning, and collaborating effectively with teams.
